

EXECUTIVE SUMMARY

UTAH WEST MINING & DEVELOPMENT
DELTA MINE
EMERY COUNTY, UTAH
ACT/015/020

On June 5th 1978, Mr. D.A. Frandsen, an attorney for Utah West Mining and Development delivered a map and a cross-section of the Delta Mine to the Division. He stated that Central Oil and Mining Company was serving notice on their lease of the property because they were not complying with the Utah Mined Land Reclamation Act.

Mr. Frandsen was informed that the Division could not grant approval for the operation until the Board met and gave its concurrence. However, Mr. Frandsen did leave a \$7,440.83 personal check with the Division for a reclamation bond. A letter was sent to Central Oil and Mining Corporation explaining the present status of the operation.

The Division feels the Mining and Reclamation Plan is in good order and should be approved.
